

SICS Travel Grant

This is a grant of up to £2000 awarded in whole or part to one or more applicants who will be undergoing travel to study or experience critical care in another environment/location. The grant is accessible to all established SICS members of any profession and any grade. Joining the Society at the time of application will lead to the application being rejected.

To apply send a clear summary (maximum length - one side of A4 only in 12 point font as a Word document) of your proposed project and anticipated costs to the Secretary at the address below or by email. Any other sources of funding or applications for funding must be declared.

The successful applicant(s) must present an account of their project at the following years' ASM in January.

Closing date is the end of March each year. Applications will be considered at the SICS Council meeting in the spring. The decision of the Council is final.

Dr Sarah Ramsay (Hon Sec SICS)
