

Are you involved in interhospital transfers?

**By ambulance? Helicopter? Fixed wing aircraft?
Are you insured in the event of an accident?
If you were to suffer injury or death in the course
of a transfer what would you or your dependents
receive from your trust or organisation?**

The SICS now offers insurance for personnel on interhospital transfers. £1 million is payable if death occurs during a transfer. This policy is identical to that offered by the Association of Anaesthetists of Great Britain and Ireland and the Intensive Care Society (UK). There is also coverage for injury sustained during a transfer. The full terms and conditions can be viewed on the SICS website on:

www.scottishintensivecare.org.uk

To be eligible just join the SICS. £15 per year for nursing staff, £30 per year for medical staff. Membership forms can be downloaded from the SICS Website.
